MedSTAR Transport 

Thanks for calling!

Thank you for calling MedSTAR to transport your patient today. We are proud that you chose to entrust your patient's care to us. We are grateful for the hard work you do every day. Please share these items with your staff as tokens of our appreciation.

Follow-up Information

We know that your concern for your patient doesn't stop when our helicopter lifts. We are happy to provide follow-up information whenever possible. If possible, please give your name and phone number to a crewmember for them to contact you directly.

Otherwise, the primary provider can contact the trauma center directly—for patients transported to MedSTAR call 202-877-7234, for Fairfax call 703-698-2274. If your patient went somewhere else, or you are unsure where they were taken, call MedSTAR Communications at 202-877-7234.

About MedSTAR

A division of Washington Hospital Center in Washington, DC, MedSTAR Medevac operates three helicopters from airport bases around the DC area. Since 1983, MedSTAR has completed over 27,000 accident-free patient transports. In addition to the advanced level of airway management you may have seen our nurse/paramedic crews perform on scene responses, our crews are well versed in all aspects of critical care transportation and are able to transport acutely ill patients on multiple IV medications, standard and pressure control ventilators, ventricular assist devices and intraaortic balloon pumps.

Outreach Program

Providing continuing education for prehospital personnel is becoming more challenging that ever. Let us help you! Through our Outreach Program MedSTAR can provide staff to teach any topic relating to trauma, emergency, and critical care medicine. We have a variety of lectures already available, or we can research and present a specific topic to meet your needs. E-mail for more information.

Ride Along Program

Interested in seeing the day-to-day operations of our program? We offer ride-alongs to hospital and prehospital personnel on a space-available basis. Participants must be 18 years of age, weigh less than 220 pounds, and be in good general health. Rotations through the Level I trauma unit at Washington Hospital Center are also available. E-mail for an application.

MedSTAR Merchandise

We have a full line of apparel and accessories with the MedSTAR logo available. Check out the display in the MedSTAR Trauma unit at Washington Hospital Center, or e-mail for a price list.

For more information on any of our programs, e-mail us at MedstarOutreach@hotmail.com.
